## REPRESENTATION OF INJURED BUSINESSES

The legal environment in which business must function changes rapidly and without notice. The opening of international markets through the Internet, wide availability of personal computers, and the dropping of trade barriers has made capable, user-friendly legal counsel more a necessity than a luxury. At the same time, greater opportunity exists for unfair competition, including abuse of non-competition agreements or pirating of trade secrets. Richard L. Armstrong & Associates has built a reputation for excellence, cutting-edge innovation, and reliability among its business and senior executive clients.

## REPRESENTATION OF INJURED INDIVIDUALS

Armstrong The Law Firm is dedicated to zealous advocacy for victims of personal injury, catastrophic accidents, nursing home negligence, wrongful death, brain injury and airplane crashes, to name a few cases. The Firm has achieved significant personal injury settlements for clients ranging from young children to the elderly. Armstrong The Law Firm is proud of its record in vindicating the rights of victims: whether it involves suing a nursing home for negligent care leading to wrongful death, or obtaining a successful settlement of an auto accident case. The focus is on results for clients.

## FRACTIONAL GENERAL COUNSEL (FGC)

FGC provides small and medium-sized businesses with the same senior-level legal resources as their larger competitors, at a fraction of the cost. It can include establishing an office at the client location and becoming a part of the client management team. FGC provides a proactive and preventative management approach to business legal issues. It better prepares a management in a small and medium size companies for litigation should it occur because the FGC is a member of the team and up to speed on all aspects of the business.
